## DETAILED ACTION

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance:

The allowability resides in the overall structure of the device as claimed at least in independent claim 1, and at least in part, because of the following:

US/4,783,867 to Tsao discloses a multi-functional stationary tool combination including a tape measure [M], a carton opener [D], a stapler [B], a pencil sharpener [S], a hole puncher [C] and a scissors [A] which are enclosed in a housing defined by a top cover [1], a bottom seat [3], an upper partition [2] and a lower partition [4], but does not disclose a nail file, a LED lighting, a flat and Philips-type screwdrivers, a semi-circular hole formed on a left side of the case of the pencil sharpener passes through a button disposed on a left side of the lower partition, a board-style retaining bolt inserts downwards into latch grooves formed on opposite sides of the semi-circular hole and a screw penetrated downwards through the upper partition and then fixed in the screw hole at the end of the button.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
